AUGUSTUS SILVA

TO WHOM THIS YEARBOOK IS GRATEFULLY DEDICATED

"No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge.

The teacher who walks in the

The teacher who walks in the shadow of the temple, among his followers, gives not of his wisdom but rather of his faith and his lovingness.

If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind."

"The Prophet"

To the Graduating Class of 1956:

Recognition takes many forms: a handclasp, a pat on the back, use of a proper name or title, a salary increase, an emblem, praise or many others. But various situations present unique opportunities for providing recognition to others, and these opportunities should be siezed when the come, not chased when they are gone.

In brief: Others will like you to the extent that you accord them recognition.

I believe that if each of you in your daily work recognizes not only the good you are doing but in turn recognizes the good of others, whether they be your superiors or subordinates, you will find success in abundance.

We of the institute realize that during your stay here, you have found many things to be desired. We also recognize our shortcomings. There are improvements to be made and they are being made.

When you go out into the world we hope you will recognize and remember the good we have tried to do. Forgive us the things we could not do.

Congratulations and best wishes to you all,

Dr. John E, Foster, President

textile engineering

The study of textiles includes all
phases of manufacturing, finishing and testing
of cotton cloth. Three years of designing, cotton yarn manufacturing,
weaving and analysis are required, as well as two years of dying and one year of
finishing. The student must design and weave three original patterns
in addition to his practical work in the different labs.

FABIAN PAUL BARCH B.S. IN TEXTILE ENGINEERING

"Liberty, equality, fraternity."

"Diamonds are a girl's best friend."

PAULINE ELDRIDGE

B.S. IN MECHANICAL ENGINEERING

sewing machine maintenance

The sewing machine maintenance course is a two
year course, with credit given for the last semester, which is spent
in industry. The course consists of lectures on stitching, stitch classification, and
style. Upon graduation, the student is able to assemble, repair, and
do time studies on ninety percent of the sewing
machines found in industry.

"Nothing is impossible to a willing heart."

NORBERT DESROCHES

CERTIFICATE
SEWING MACHINE MAINTENANCE

DAVID RAZON

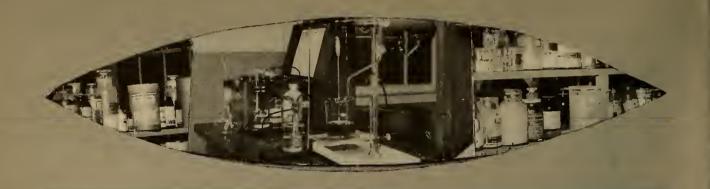

CERTIFICATE
SEWING MACHINE MAINTENANCE

Intramural Sports - 1, 2; Univets - 1, 2.

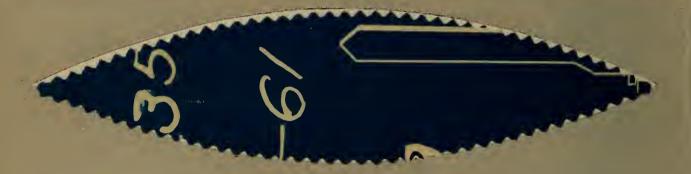

"Of a good beginning cometh a good end."

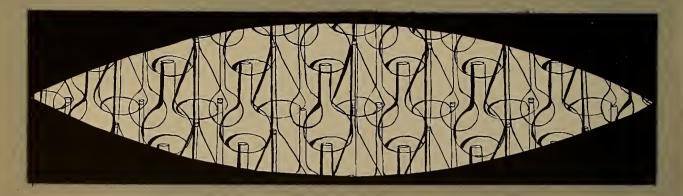

chemistry

Textile Chemistry trains students for careers in the chemical industries, but particularly in the field of textile chemistry, dyeing and finishing. A sound training in the fields of inorganic, organic, analytical, and textile chemistry are provided, as well as the academic subjects that are necessary for a well rounded education.

ALICE CAMACHO

B.S. IN TEXTILE CHEMISTRY

Student Council - 2, 3; Glee Club - 2, 3, 4; Class Officer - Secretary 2, 3; Newman Club - 3, 4.

"Cheerfulness is an excellent wearing quality."

"Serious, but not too serious; Quiet, but not too quiet."

let your STOWE-WOODWARD man help you

It's a better than even chance, that you who have special preparatory training will became the textile executives af tamarraw; and because af this, Stawe-Waadward has a genuine interest in you who are graduating.

Lang befare you reach the position that gaes with that big mahagany desk and its inviting swivel chair, you will have learned a good deal about Stawe-Waadward Rubber Cavered Ralls and their importance in the textile industry.

When you've arrived, you will also know that Stowe-Waadward is a pretty dependable source of help an any textile problem involving the use of rubber covered ralls. By then, we'll know you, tao.

Right naw, we'd like to extend congratulations far a good start and our best wishes far your success.

VATROLITE® - Use this powerful concentroted reducing agent for brighter vot dyed colors an cotton, linen and royon . . . for foster, cleaner stripping results on silk, cottan and royon. DISCOLITE® - A concentrated reducing agent, highly stable of high temperatures, outstanding for discharge and vat calor printing. Employed successfully wherever the reducing ogent must dry into the fobric and retain its reducing power. NEOZYME®-Cancentrated low tempera-PAROLITE® - A dust-free white crystolline ture desizing enzyme. Remaves storch and reducing agent. Soluble, colarless, excellent gelatine. Excellent for eliminating thickeners for stripping woal, wool rogs, shoddy ocetate from printed goods ot low temperotures. or Nylon fabric. NEOZYME® HT-Concentrated high tem. perature desizing enzyme. Removes both storch and gelotine. Suitable for continuous pod-steom methad. Remorkable stability of very high temperatures. NEOZYME® L & NEOZYME Special — Liquid desizing enzymes in two degrees of cancentration. Remarkable stability of very high temperatures. VELVO SOFTENER #25 - Economical creamy white poste softener derived from highly sulphonated tollows. Gives softness and body without stiffness or offecting whites. NEOPON®-Surface-octive compound with excellent detergent qualities with some wetting power. Not offected by hord water. Con be used in ocid, neutrol or alkoline boths. DISPERSALL®—Effective retardent far dye-CASTROLITE®—A highly sulphonoted cosing vot colors, dispersing and leveling qualtar oil used as a staple penetront for dyeing ities, for dyeing nophthol and vat colors, useful in wool and acetate dyeing. Voluoble ar bleoching in leoding textile mills. auxiliory in stripping vat colors, naphthols. VELVORAY® — A blend of vegetable oils and selected fats for a superior, non-foom-NEOWET® - Permits effective wetting at oll temperatures - porticularly useful with ing finishing ail. High in combined SO3 and stability. Excellent far campressive shrinking, enzymotic desizing agents. No reaction to soft or hord water. Nat affected by either will not smake off at high temperatures. acid or alkali chemicols. Non-ianic. NEOQUEST® - Removes the unwanted metallic ions fram your processing liquors. Kier bailing assistant; dyeing assistant; does gaad even in the finishing mix. Cleaner whites; brighter colors. CHEMICAL COMPANY . CARLTON HILL, NEW JERSEY Manufacturers of Chemicals for the Textile Industry

EXACTLY the same good results each time you Desize with

Carefully standardized to give uniform results at all times — Exize-T is the most efficient most economical of all desizers,

Safe! Extize-T is not a harsh chemical — but a harmless liquid enzyme concentrate. Easy to apply. Removes starch quickly cheaply completely. Write now for free booklet.

REVERE TEXTILE PRINT ROLLS

A New Bedford Product Famous For a Hundred Years

"For more than a century the New Bedford Division of Revere Copper and Brass Incorporated has been making textile print rolls. As a result of this long experience the Revere organization is in a unique position to know and understand practical textile printing problems and how to meet them with rolls best adapted to give efficient, economical service.

"Revere specialists in this field are available to assist you in obtaining the type of rolls best adapted to serve your individual requirements."

What a wonderful world of color was locked in that magic tube!

Shimmering jewels, a brilliant mosaic-what pictures eould be imagined in the tiny wonderland of a kaleidoscope! But careful! Don't jolt it! . . . Or you'll find that your wonderland has gone.

Every color that danced in that miracle tube has been captured by dye seigntists for everthing that people wear or people use. But these need not be kaleidoscopic eolors that ehange-West Dyes or unstable eolors that fade; they can be eolors that last for the entire lifetime of the material.

That's the kind of color fastness that can be yours when you turn to Du Pont for dyes. Our technical service experts will help you find the right dyc for the end usewhatever it may be. E. I. du Pont de Nemours & Co. (Ine.), Dyes and Chemicals Division, Wilmington 98, Delaware.
